Specialist Knowledge for Teaching Mathematics

Secondary Teaching Assistants

This programme id designed to improve the subject knowledge and pedagogical knoledge of all TA's supporting the learning of secondary maths.
Participants will focus on using precise mathematical language, representations and reasoning within the topics: addition and subtraction; multiplication and division; fractions; ration and proportion. They will also carry out follow-up tasks in school to enable practice transfer to the classroom. The programme will take place over the equivalent of four days; participants must attend all sessions.

Who can take part?

This is for teaching assistants who work predominantly with students in the KS3 maths classroom or who lead intervention sessions with groups of students.

APPLY NOW
