

Engaging science in Year 6

SUMMARY

Gain the confidence you need to teach Year 6 primary science. This course will help you to develop your subject knowledge and gather ideas to cover the tricky bits of the curriculum. You will identify some common misconceptions that children may hold and discover a range of strategies to reconstruct knowledge.

OUTCOMES

By the end of this session you will be able to:

- describe how the KS2 science curriculum might engage developing scientists
- to identify common misconceptions Year 6 students may hold
- consider a range of strategies for reconstructing misconceptions

**You will explore
purposeful practices
and resources specific
to year 6 teaching to
support you.**

WHEN & WHERE?

19 March 2024
15:30 - 17:30
Virtual
