Reading fluency is key to reading success, bridging word reading and comprehension. Building on strong phonics foundations, effective fluency instruction helps pupils become confident, capable readers who understand and enjoy texts.

COURSE AIMS:

This modular programme helps delegates understand reading fluency and apply evidence-based strategies in Key Stage 2, supporting all pupils in becoming motivated, successful readers while enhancing existing school reading practices.

AIMED AT:

Schools should select a Key Stage 2 reading fluency leader—such as a reading lead or aspiring leader—to attend the CPD. The programme suits those new to reading fluency or looking to deepen their understanding of the research and effective practices.

Venue: **In person** modules will be delivered at Elmhurst Primary School, London, E7 8JY. **Remote modules** will be delivered via Zoom.
