

WHY CHOOSE AN NPQ?

As a Nursery owner, manager, SENCO and DSL, I wanted to remain up to date with my continuous professional development, and add to my qualifications with this NPQ focused on the leadership of Early Years.

IMPACT

- I feel much more confident in leading my staff team, I feel I had most of the understanding there but often felt unsure of myself.
- Undertaking the course has really shown me that the approaches and practices I've instilled are benefitting the children and staff.

BENEFITS

1. Sharing Experiences

It has been good to hear of others experiences and sharing examples of how we would deal with different scenarios.

2. Flexible Thinking

Completing the NPQ has allowed me to tap into other practitioners expertise, think outside the box and not get stuck in my own way of thinking.

TOP TIPS FOR PROGRAMME MEMBERS

Reach out to the course facilitators and the team at Saffron if you need help - our facilitators were brilliant when I was unwell, and allowed me to join online and so I feel like I didn't miss out on any learning opportunities.

“The course wasn't too time consuming yet I feel the learning was really valuable. I wouldn't hesitate to recommend.”
