EYITT

What age phase does EYITT prepare me to teach?

- EYITT leads to Early Years Teacher Status and is for graduates who are already working/have decided to work with babies and young children up to the age of five. You need to be committed to leading care and education for babies and young children up to the age of 3 as well as for children between age 3 and 5.

If you want to focus only on children age 3+, you should research other ITT options for example 3-7 Primary ITT.
